Description and Guidance

Stamford is a leading and influential city in Connecticut. More than 125,000 people live in the city. The greatest wealth disparity between the rich and poor is found in this area. The city is transient so a number of people are always in transition. Evangelical presence is very small. There is great need and the potential harvest is huge.

Stamford CT has a 34% higher cost of living when compared to Atlanta GA.

Overall, starting a church in Stamford will be a tremendous challenge. But we are committed to God's man and we are excited about the future of Living Hope Church. We believe a new church can make a profound difference in this city. We are looking for someone of the same mind and willing to do whatever it takes to reach people for Christ. Thank you for your interest!
